What is this Medicine Called "The Queen's Delight?"

WHY, it is the most extraordinary invention as a remedy for curing disease and restoring health we have ever been called upon to record. It is a new vegetable combination, possessing in a single product the new principles for healing the sick and restoring the health. It purifies the fountain of life—the blood—and as the life of the flesh is pure blood, so impurity must be disease and death to the body. It is a tonic bitters, and may be given in all cases of weak digestion, loss of appetite, dyspepsia, debility, depressed mind and body, weariness of limbs. It is an invigorant; it infuses new life to the blood, by removing the humors and impurities which check the healthful circulation. It is a stimulant; it gives activity to the nervous fluids, and invigorates the organs of life. It is the only medicine yet discovered that comes up to the true standard of merit and worth, and secures to the invalid and the diseased the greatest of all blessings—health.
